

# New World Order Underwater - the Nae-Nee Inventors Strike Back

Stephanie C. Fox

The world of Nae-Nee has undergone a tremendous change. 6.8 billion were killed within the space of a year. The Cull was not a natural plague: it was genocide. Human beings - each one unique, many talented - have been erased. The world reflects the new reality of the damage wrought by human overpopulation and resource depletion. Most of it is underwater. Universal use of Nae-Nee, the nanite birth control device, continues. Anyone wishing to reproduce must get a license to do so, and none will be granted before a death has been recorded. The worlds banksters, hedge fundsters, and corporatists - whom Avril has dubbed Farmers due to their treatment of humans as a crop to be managed - orchestrated the Cull. She must find a way to make this crime transparent to all while remaining out of reach. The Farmers are a pernicious threat, one that must be addressed, or the new world order will be one of fear and manipulation by the powerful few.
